

# SCHOLARSHIP PROGRAM IN SCIENCE AND MATHEMATICS AT KENNESAW STATE UNIVERSITY

College of Science and Mathematics at Kennesaw State University has been awarded a **\$551,780** grant by the **National Science Foundation (NSF)** to increase the retention and graduation rates of students in one of the STEM disciplines. Through the **Scholarship Program in Science and Mathematics at Kennesaw State University**, NSF is strengthening the U.S. scientific workforce by supporting academically talented and financially disadvantaged students who would otherwise have difficulties reaching their goals. The project is awarding 160 scholarships over a four-year period to undergraduates in mathematics, biology, biotechnology, chemistry, biochemistry, or computer science. Students who satisfy eligibility requirements (including a minimum 3.0 GPA) will receive **annual scholarships up to \$3,000, depending upon financial need**.

## To be eligible to participate in the scholarship program, students must:

- (1) Be entering freshman;
- (2) Be U.S. citizens, nationals, aliens admitted as refugees, permanent resident aliens;
- (3) Be enrolled full time in a baccalaureate degree program in one of the STEM disciplines at Kennesaw State University (mathematics, biology, biotechnology, chemistry, biochemistry, computer science, information technology) as shown in the departmental records;
- (4) Demonstrate academic potential via a cumulative GPA of minimum 3.0 on a 4.0 scale. Recommendations from teachers, counselors, or advisors may substitute for a lower cumulative GPA, but not lower than 2.8 on the same scale;
- (5) Demonstrate financial need as defined by the U.S. Department of Education.
