Deadline for manuscript submissions:

**31 December 2020**

### Message from the Guest Editor

At the age of communication, social networking, branding by reviews, and hashtag influences, the risk of the social movement, neighborhood-driven work stops, and construction delay due to unaddressed social concerns is increasing. If proper risk identification and mitigation is not in practice, soon we will see the “neighborhood delays” as a modern risk factor to stay. This Special Issue welcomes **a) Neighborhood concerns:** Crime footprint, social carrying capacity footprint, public goods footprint. **b) General public concerns:** Migration footprint, class society footprint, heritage footprint. **c) Concerns on the current mechanisms:** CSR actions and effectiveness, NGOs’ actions and effectiveness, SDG relevant projects.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
