CALCULATOR POLICY: A basic calculator is needed for some parts of this course. TI models 84 and lower are acceptable. For other models check with me before assuming they are alright to use.

GRADING: Your grade will be weighted as follows.
- Highest 3 scores from in-class tests and quiz average........ 25% each
- Comprehensive final exam........................................... 25% There are no final exam exemptions.

TESTS: In-class tests will be on the following days.
- Test 1: Friday, Feb. 7, covering 1.1, 1.2, 2.1, 2.2, 3.1, 3.3, 3.6, 3.7
- Test 2: Friday, March 13, covering 4.1, 4.2, 5.1, 6.2 - 6.7
- Test 3: Friday, April 24, covering 10.1, 10.2, 11.1, 11.2, 11.5, 11.6, 12.2

No early or make-up tests will be given for any reason. A student missing one test will use that zero score as their dropped score, via the policy described in QUIZZES below. A student missing a second test will have the first zero score dropped, via the test score drop policy described in QUIZZES below, and the second zero score replaced by their final exam score. Additional missed tests will be recorded as zeros.

QUIZZES: There will be at least ten short unannounced quizzes. Your highest five quiz scores will determine your quiz average. No early or make-up quizzes will be given for any reason. Only the best 3 scores from Test1, Test2, Test3, QuizAv will be used, along with your final exam score, in your average for the course. The final exam cannot be dropped.

HOMEWORK: Homework assignments will be made in class. Questions will be answered at the start of the next class. It is your responsibility to do the homework. It is the best method to learn the material and prepare for the tests.

SCHEDULE: Attendance is important. Students are responsible for all material and course information covered in class.
