INSTRUCTOR: Dr. Joel Fowler, (470) 578 - 7414, email: jfowle60@kennesaw.edu  
Office: D - 201, Hours: MWF 10:50-12:00, or by appointment.

CALCULATOR POLICY: A basic calculator is needed for some parts of this course. TI models 84 and lower are acceptable. For other models check with me before assuming they're alright to use.

GRADING: Your grade will be weighted as follows.

Highest 3 scores from in-class tests and quiz average........... 25% each  
Comprehensive final exam........................................ 25%  There are no final exam exemptions.

TESTS: In-class tests will be on the following days.

Test 1: Friday, Feb. 9, covering 1.2 - 1.6, 2.1 - 2.3  
Test 2: Friday, March 16, covering 3.1 - 3.4, 4.1, 4.2, 4.4, 5.1  
Test 3: Monday, April 23, covering 5.2, 5.3, 6.1 - 6.3, 7.3 (Some portions of 7.3 will be tested on the final exam)

No early or make-up tests will be given for any reason. A student missing one test will have that zero score replaced by their quiz average, via the policy described in QUIZZES below. A student missing a second test will have the first zero score replaced by their quiz average, via the test score drop policy described in QUIZZES below, and the second zero score replaced by their final exam score. Additional missed tests will be recorded as zeros.

QUIZZES: There will be at least six short unannounced quizzes. Your highest five quiz scores will determine your quiz average. If your quiz average is higher than your lowest in-class test score it will replace that score. No early or make-up quizzes will be given for any reason. Note that your quiz average cannot replace your final exam score.

HOMEWORK: Homework assignments will be made in class. Questions will be answered at the start of the next class. It is your responsibility to do the homework. It is the best method to learn the material and prepare for the tests.

SCHEDULE: Class attendance is important. Students are responsible for all material and course information covered in class.
