Information
Saturday, February 13, 2016

- Student Talks
- Team Problem Solving Competition
- MAA State Luncheon and Plenary Speaker
- T.A. Rush (Graduate Program Exhibits)
- Career Panel
- No Registration Fee for Undergraduate Students
  $25 for Faculty and Other Attendees
- Lunch and Refreshments

Keynote Speaker: Ron Taylor
Berry College
Recipient of the MAA Southeastern Section’s Distinguished Teaching Award

Detailed information and registration is available online at:
http://cosm.georgiasouthern.edu/math/eumc/

Deadline for Online Registration: Friday, February 5, 2016

Schedule

9:00 — 9:20  Registration and Refreshments
9:20 — 9:30  Welcome
9:30 — 10:55 Student Presentations
11:10 — 12:10 Team Problem Solving Competition
12:10 — 12:55 Lunch
1:00 — 2:00  MAA State Luncheon Address:
              “Verifying the Riemann Hypothesis”
              Dr. Ron Taylor, Berry College
2:00 — 2:15  Break
2:20 — 3:35  Student Presentations
3:40 — 4:00  Closing and Announcement of Awards

Graduate Program Exhibits will be set up and available during lunch and all break times.
The conference will provide an excellent opportunity for undergraduates enrolled in institutions in Georgia, South Carolina, and northern Florida to interact with other students and faculty about their experiences in mathematics. This is an opportunity for undergraduate students at all levels to give 15-minute talks about their independent work in any area associated with mathematics, its applications, its history or its education.

You are encouraged to bring your students to the conference to give a talk, participate in the contest, or listen to the talks.

The student competition will be conducted in teams of three, with problems chosen from undergraduate mathematics subjects such as Calculus, Differential Equations, Analysis, Linear Algebra, etc. We can help students from different schools join into at-large teams.

As part of the graduate program exhibition, universities are invited to set up an information table with information about your graduate program.

We are very pleased to welcome invited MAA luncheon speaker Ron Taylor of Berry College, the 2013 recipient of the MAA Southeastern Section’s Distinguished Teaching Award.

Funding for the conference is provided by the College of Science and Mathematics and Department of Mathematical Sciences at Georgia Southern University.
