AND HUMAN SERVICES

*Want to participate
in maternal health
research?*

PREGNANT WOMEN (ages 18-35 yrs)

NEEDED for a research study examining risk
of having gestational diabetes

- ♦ Must be first time pregnant with no history of diabetes
- ♦ 3 Visits to KSU during pregnancy (1 visit each trimester)
- ♦ 1 Visit to KSU after delivery (at 4 weeks postpartum)
- ♦ Visits will include measures of body composition, cardiovascular and metabolic health, and food and activity during pregnancy.
- ♦ Enroll early: before the 15th week of pregnancy.
- ♦ Participants will receive compensation (\$350 total for 4 visits)
- ♦ COVID safety is prioritized– ask about our protocols!

KSU IRB #20-322
